ONE COPY—ONE CENT.

## GIEHLS ARRESTED

Young Chiropractor is Charged with Practicing Without a Proper License—Several Local Physicians Behind Prosecution.

A warrant was issued by Squire Fred W. Bauer yesterday for the arrest of Mr. Roy Giehls, who opened offices as a chiropractor in this city. The warrant reads for practicing without a proper license.

Mr. Giehls has been in this city for only a few days, having opened his office in the First-Standard bank. He had previously been in town in a city there. His home is in Ohio, where he has also practiced his science.

The laws of Kentucky requires that every person practicing health restoring science procure a proper license in order to be able to practice. This Mr. Giehls overlooked doing.

It is generally understood that several of the local physicians are the ones that have preferred the charges against the young man. The trial has been postponed until next Tuesday afternoon. Hon. Frank P. O'Donnell represents the defendant.

The condition of Mr. John Crane, whose illness was noted in yesterday's Ledger, is not improved this morning.

Mrs. George Garrison of Murphysville, who has been very ill with the grippe, is improving rapidly.

## LOWER COURT AFFIRMED

In the Court of Appeals at Frankfort yesterday the judgment of the Mason Circuit Court in the case of Fred Hayes vs. the Commonwealth was affirmed.

Hayes was tried during the September term of the lower court and convicted to a three year term in the penitentiary for obtaining money under false pretenses. The case was appealed. He was represented by Hon. A. D. Cole of this city.

## NAME WAS WRONG

In the announcement of the candidacy of Mr. Donovan for County Assessor we published his name yesterday as Arthur L. Donovan. This was a mistake on our part as Mr. Donovan's name is Elmer. As we had the announcement it was Mr. Donovan's father running for assessor.

## WENT TO CINCINNATI

Hon. William D. Cochran was in Cincinnati yesterday, having an X-ray picture taken of the arm injured while campaigning in Lewis county last fall. The arm has been bothering him very much for several days past. The examination found no serious trouble.

D. Hechinger & Co., who are always on the lookout for up-to-date merchandise, received yesterday a shipment of shirts from Japan. This order was placed in April, 1916—nearly a year ago. They are quite attractive—just different from shirts made in this country, and it will be worth your while to drop in and give them a look.

## FINAL SALES

Of the Week on the Local Tobacco Market Are Reported to Be Over a Million Pounds.

The total sales as reported to the Ledger for yesterday reached a total of 1,112,370 pounds as sold for the day at prices ranging from \$9 to \$45 per hundred pounds. The average for the day will run considerably over \$17 per hundred.

The quality of tobacco brought to the market during the past week was fair, very few good crops being offered. Many of the growers are holding back the best portions of their crops for later in the season. The receipts during the past week have been the heaviest of the season.

According to the figures given to the Ledger during the past week a total of 2,994,325 pounds of the week have been sold. At several of the houses a large amount of tobacco still remains on the floor, the buyers not being able to get to it. Two sets of buyers are being used.

The following were the sales yesterday:

Liberty	
Pounds sold	168,885
High price	\$30.00
Low price	11.00
Average	18.02

## THAW, IMPROVING, IGNORANT OF ARREST

Philadelphia, January 12—Plans for the removal to New York of Harry K. Thaw, who yesterday attempted to commit suicide in West Philadelphia, as he was about to be surrendered to the New York authorities on charges of kidnapping and assaulting Fred Gump, Jr., of Kansas City, as soon as he is able to leave the hospital, were discussed at a conference late today between counsel for Oliver A. Brower and representatives of the Thaw interests in this city and Pittsburg. At the conclusion of the conference it was announced that no efforts to prevent his removal are likely to be made.

Brower, who was arrested here under the name of O'Flynn and who is under indictment in connection with the Gump charges, was today held without bail to await requisition papers that will remove him to New York.

Thaw's condition was reported tonight as good, and unless complications arise his physicians say he will be able to leave the hospital within two weeks. Dr. Elwood H. Kirby, of this city, who was summoned by the Thaw's family to attend him, said he felt sure Thaw had not taken slow poison tablets. Dr. Kirby said it probably would be forty-eight hours before Thaw would be able to talk or make any statements.

"He is only able to eat liquid foods," said the doctor, "and these are given him through a feeder. He does not know he is under arrest."

New York detectives went to the hospital today to talk to Thaw, but the physicians would not permit him to be disturbed.

## SHIPPED MATERIAL

Messrs. Schofield & Jones, the contractors, have been in this city for the past few days getting ready their various implements and material used in laying brick streets in the down town district, in order to ship them to their headquarters in Newport. These gentlemen were the first to complete their contract, although they were held back several weeks on account of non arrival of brick. They were both very pleasant gentlemen and we wish them success in similar contracts in other cities and in this city if they ever return here again to lay streets.

## FREIGHT COSTS SOMETHING

The M. C. Russell Co. yesterday received a carload of salmon from Seattle, Washington, with a small freight bill attached—only \$190. That sounds like the fellow who said if he was liberated from prison he would go so far away that it would take \$9 to send him a postal card. But we have to have our salmon salad, even if we do have to pay \$190 freight to get the raw material here.

Mr. George Hunter of Adrian, Mich., a reporter on a daily in that city, is spending a few days in this city.

## ENTERTAINED

Miss Henh Ginn entertained a number of her friends at her home on East Second street last evening. About 25 were present. Dancing was the order of the evening. Delicious refreshments were served by the hostess.

## NEW COLD WAVE FOR TONIGHT

A decided fall in the temperature tonight is predicted by the Weather Bureau at Washington. Yesterday was somewhat warmer than the day before and the temperature is even warmer this morning.

**DEATH OF JOHN T. LINVILLE**  
(Mt. Olive Tribune-Democrat.)  
John Thomas Linnville, one of Robertson's aged and highly respected citizens, died at his home on Johnson, near Mitchell's Mills, last Thursday evening at 5 o'clock, of heart trouble, in his 80th year. Burial in Mt. Pisgah Cemetery, Fleming county, Saturday.  
Mr. Linnville was one of our county's quiet and best citizens. He was a farmer and a Confederate veteran. He is survived by his wife and five children—William M. Burdick and Samuel Linnville; Mrs. Charles W. Linnville and Miss Gertrude Linnville. He is also survived by one brother, W. B. Linnville of Kenton town; and two sisters, Mrs. Martha M. Craycraft of Cincinnati and Mrs. Mary Ellen Mullikin of this county.

**SERIES OF SERMONS**  
Beginning on Sunday evening, January 14, the minister of the Christian Church will deliver a series of sermons on the "Christian and His Duties." The themes are:  
"The Christian; Who is He?"  
"The Christian; His Convictions."  
"The Christian and His Money."  
"The Christian as a Wife."  
"The Christian as a Husband."  
"The Christian and His Health."  
"The Christian as a Citizen."  
"The Christian and His Church."  
Different persons in the city have been asked to give their answer to questions growing out of these themes. These will be used in shaping the character of the discourses given.

**BADLY BRUISED**  
Mr. Fred Cogan, the messenger at the Western Union Station in this city, was badly bruised on Thursday when he fell from his bicycle. He was coming down the street when he met an auto. In endeavoring to get out of the way of the approaching machine he fell from his bicycle and suffered several severe bruises and a wrenched knee.  
The Board of the Woman's Club will meet Monday afternoon at 2:30 at the club rooms

# THE DAILY PUBLIC LEDGER

Published Daily Except Sunday, Friday of July, Thanksgiving and Christmas by the Ledger Publishing Company, Maysville, Kentucky.

Local and Long Distance Telephone No. 40. Office—Public Ledger Building.

Entered at the Maysville, Kentucky Postoffice as Second-class Mail Matter.

## A NATIONAL ASSET

Secretary Baker wisely recognizes the munition factories as one of the most important of the national assets, without which the nation would be helpless in any emergency calling for instant defensive preparations. Many of these establishments owe their being to the stimulated demand growing out of the great war, and most of them represent factories originally designed for other purposes, but equipped especially to supply the needs of the belligerents over seas. To allow them to be totally dismantled when the present war ends would be a short-sighted failure to profit by one of the most vital lessons of the hour. There ought to be some way to conserve a resource so valuable short of government ownership, one of the most powerful arguments against the embarkation of the government in armor-plate manufacture had reference to its effect upon the existing plants. Even the plant contemplated by existing law would be totally inadequate to meet the present needs of the navy for protection for battleships and cruisers, and, of course, it is obvious that the present arsenals could not begin to supply the munitions that would be needed in the event of an emergency calling for national defense on a large scale. It will be recalled that even in the recent case of the mobilization of the regulars and the militia on the Mexican border, the government was deplorably lacking in many essentials of the equipment of an army. To throw away the great gain in efficiency which we have made in meeting the needs of others would be suicidal.—Philadelphia Ledger.

## THE REPUBLICAN REBOUND

In view of the showing this year by the Republican candidates for Congress in Massachusetts, who got larger pluralities, both actually and relatively, than the Republicans and Progressives together in 1914, the Democrats and some of their recently acquired allies will have difficulty in explaining what happened to the Progressive vote that they were claiming for their own candidates. Chairman Thurston's comparison of the congressional vote of the state for the two elections which have occurred during his term at the head of the state committee affords a fair measure of the rebound of the party in this state.

Is there any comfort for the Democrats in looking at the mounting pluralities for the Republican ticket, which this year reached the average of 86,000. A glance at the yearly increase in the G. O. P.'s representation in the Legislature since 1914 when the Progressives held the balance of power scarcely bears out the expectations of those who a little while ago were stating that the Republican party had shot its bolt. With a majority of 114 in the House and with only six Democrats in the Senate the Republicans have reason to worry only on account of the unwieldiness of their majority.—Boston Herald.

## THE DICTUM OF THE 2 PER CENT

Who would have thought that the time would ever come when an organization, or organizations, representing less than two per cent of the votes of the country would have the audacity to say to the President of the United States: "We elected you. Now see that we get what we want, whether it is constitutional or not?" But that is, in effect, what the railroad Big Four are saying to President Wilson. Their claim to having brought about Mr. Wilson's reelection is absurd on the face of it: it was the farmers' vote that did the trick, and the brotherhood men are fooling nobody but themselves with their ridiculous shouts of "we did it." Whether or not they will succeed in frightening the Administration into another surrender to their demands is, however, another question. The dignity and firmness and courage which characterized former administrations at Washington have not been much in evidence in the last three and a half years.—Springfield Union.

## AMERICA'S FALSE GOD

A census of America's false gods, taken by W. J. Bryan, shows up a total of nine. First in the list stands gold. Beside it the remaining eight are insignificant. The tyranny of gold passes belief at times. It has hired men from pressing affairs of State to the Chautauqua circuit, where golden eagles mocked the call of duty. Its crimes are beyond number. Yet it is not a thankless god. Consider the brighter side. A cross of gold with no more substance than a figure of speech once blazed the way to fame and painted the route with its own colors. A false god, truly as a figure of speech, but in substance a mighty exhilarating associate.

## BRENT OPPOSED SHIP PURCHASE

Theodore Brent of New Orleans, who has been named as member of the Federal Shipping Board, does not believe in the scheme. Or, at any rate, he did not believe in it last May, when he came before the Senate committee on commerce and said so. Whether the honor and the salary attached to the office have changed Mr. Brent's opinion or whether he has become converted by Mr. McAdoo's eloquence, or whether he has been put on the board to exercise the leaven of his opposition to the full performance of the plans which the board is supposed to execute, remains to be determined.

## EFFICIENCY IN WASHINGTON

A man sent 10 cents in postage stamps to the Patent Office at Washington for two copies of a patent. The stamps were returned with a letter saying the currency must be sent. The man sent a dime and at the end of a week was informed that the copies of the patent were exhausted and that the Treasury Department would return his money. A week later the Treasury Department advised him that it would take three weeks to audit his account and refund his 10 cents. The man had spent 6 cents for postage and the Government twice as much.—Rail Mail.

President Wilson has taken to heart the adage, "If at first you don't succeed, try, try again."—Birmingham Age-Herald.

It isn't to be wondered at that a man feels restless when even his bills are unsettled.

## VOICE OF THE PRESS

Philadelphia Evening Ledger — It was Mr. Bryan, we believe, who came back from a memorable trip abroad and proposed Government ownership of railroads. But Mr. Bryan is opposed to complete Government regulation of railroads. Verily, the mind of the great Nebraskan runneth in circles and he arriveth not.

Milwaukee Evening Wisconsin — Congressman Moore's bill to give ex-Presidents seats in the House with a vote and pay them annual salaries of twenty-five thousand dollars should go into the discard. The best thing to do with ex-Presidents is to let them rot.

Bostonia (N. Y.) News — (From the Milan, Italy, Gazette) Speaking of America: "We all know the Italian discovered it. The Germans made it. The Irish rule it. The Jews improve it. The Yankees run it. The Gasolin-men own it—so where is your Americanism?"

N. Y. Sun — The mint is hurrying the output of the half dollar, a coin now used for the purchase of things that used to cost a quarter.

Omaha Bee — That "High-Cost-of-Living" coin doesn't seem to want to come down any faster just because Congress is in session.

Philadelphia Inquirer — In other words, Secretary Lansing gives out his interviews in editions with supplements.

Des Moines (Iowa) Register-Leader — There is before the Mexican Congress a proposition to abolish the death penalty. But the population will continue to dwindle so long as they don't abolish Villa.

Boston Transcript — Mr. Wilson may have thought that he was so successful in declaring war on Mexico without the aid of Congress that he could take a chance on declaring peace on Europe.

Philadelphia Press — A Washington contemporary notes that "Nobody in Congress has been denounced as a Czar in a great many years;" but isn't the Czar now located at the other end of the avenue?

Minneapolis Tribune — The committee has decided not to award the Nobel peace prize this year. Possibly the committee has not been properly impressed with the idea that "He kept us out of war."

Steubenville (Ohio) Herald-Star — Secretary Lansing doesn't talk very often but he certainly does throw a scare when he does chimp.

Kansas City Star — There is just about as much danger of the United States becoming "militaristic" by giving a few months' training to all its young men as there is for an office clerk to get the hug of being a prize fighter by taking fifteen minutes' systematic exercise every day.

Newsburg (N. Y.) Journal — After looking over the unofficial returns, Republicans have reason to be proud of the militant Republicanism of the State of New York. The voters of this State are not easily gold-brieked. They have no illusions about the Democratic party.

## COMMISSION URGED FOR RIVERS, HARBORS, FLOOD

Washington, January 11—President Wilson's recommendation for a permanent commission of prominent officials and members of Congress to coordinate river and harbor improvements and flood control, has been written into the annual river and harbor appropriation bill by the House committee framing it. Republicans already are making plans for a vigorous fight on the proposal.

The bill, to be reported tomorrow, provides that three members of the cabinet and three Senators and three Representatives on the committees handling river and harbor legislation shall make up the commission. The Republicans declare the membership has been thus defied in order to provide a refuge for "lame ducks," pointing out that the three ranking Democrats on the House Rivers and Harbors Committee all failed of reelection last November.

## ANNOUNCEMENT

We are authorized to announce Eimer L. Donovan of Sardis precinct, as a candidate for Assessor of Mason County. Subject to the action of the Democratic Primary August, 1917.

Official figures show that frogs are more frequent on the coasts of Maine and New Hampshire than on any other parts of the coasts of the United States.

Sounds travel through dry air at the rate of sixty feet per second; through water at 240 feet per second, and in steel wire at 17,130 feet per second.

## BASEBALL FRATERNITY THREATENS TO STRIKE

New York, January 11—The baseball players' fraternity through its president David L. Fultz, today threw down the gauntlet to organize baseball and declared that unless the magnates agreed to the request of the fraternity there would be no need of training camps this spring.

As evidence of the earnest intention of the fraternity to fight for its terms, its just right, the organization announced that it has expelled Pitcher Harry F. P. (Slim) Sallee from membership because he had signed a contract with the New York National League club after he had promised that he would stand with the fraternity until given the word that would permit of a contract acceptance.

President John K. Tener, of the National League, one of the three mem-

bers of the National Commission, said tonight that he deplored the threatened stand of the baseball players' fraternity insofar as it might affect the National League, as there was probably no ground for what might be termed a strike on the part of players expected to play with the senior organizations next season.

President Tener refused to say what methods of retaliation might be adopted in case the fraternity members carried out their threat to strike.

A waterproof electric motor has been invented by an Australian to drive brushes against the hulls of vessels to clean them without dry docking.

Through the advance of the ocean on its shores, Great Britain loses each year about 100,000 tons of wool.

## What a Pleasure

### The Loose Leaf Warehouse Business Is Now

It makes us feel good to receive the letters, and the kind words about the SATISFACTORY SALES we are now making. We have never made the claim that we get so much more for tobacco than the other houses, but we do give each basket our personal attention, and try to make it bring its value, and with our many years experience, we have confidence enough in our judgment to take all we bid off, giving the grower a clean sale. Try us with a load and go home happy.

## Chiropractic

(Pronounced Ki-ro-prak-tik)

The Drugless Art

Many people are dropping the habit of taking medicine when they get sick. Why? Listen to a few facts about the drugless art of Chiropractic:

First. No matter what ails you, or how sick you may be, the doctor of Chiropractic does not use the knife or prescribe a course of medicine.

Second. His method of aiding nature to restore lost health is by spinal adjustments, which tend to remove obstacles interfering with the flow of nerve force to the part of the body affected.

Third. When your nerves fully and freely stimulate your body, the result is good health. The opposite condition is bad health. Ask for booklet.

## A Suggestion

To Tobacco Growers

Nothing, in our opinion, is so liable to seriously effect the present satisfactory prices of Tobacco as the over crowding of the market.

Our advice to you is, bring each wagon load to market just as soon as you get it ready. Don't delay until you get your whole crop, or the most of it stripped. To do so will be a mistake.

A steady market is always better than a glutted one. Don't get too much here at once. As our house is the largest, we are helped most by a rush; but, we know that what is not good for you is not, in the long run, good for us.

We Are For What Helps Everybody Most

That is the reason we so carefully sort and handle each crop of Tobacco before offering it for sale.

Bring each load, as soon as ready, to the

## HOME

## FAMILY AVOIDS SERIOUS SICKNESS

By Being Constantly Supplied With Theford's Black-Draught.

McDuff, Va.—"I suffered for several years," says Mrs. J. B. Whitaker, of this place, "with sick headache, and stomach trouble.

Ten years ago a friend told me to try Theford's Black-Draught, which I did, and I found it to be the best family medicine for young and old.

I keep Black-Draught on hand all the time now, and when my children feel a little bad, they ask me for a dose, and it does them more good than any medicine they ever tried.

We never have a long spell of sickness in our family, since we commenced using Black-Draught."

Theford's Black-Draught is purely vegetable, and has been found to regulate weak stomachs, aid digestion, relieve indigestion, colic, wind, nausea, headache, sick stomach, and similar symptoms.

It has been in constant use for more than 70 years, and has benefited more than a million people.

Your druggist sells and recommends Black-Draught. Price only 25c. Get a package to-day. N. C. 123

## MUNITIONS SHOP

Wrecked by Big Flames—17 Missiles—Explosives Fly In Air, Add In Reign of Horror—Concessions are Felt Miles Away—Plant Across From New York In Ruins.

New York, January 11—The plant of the Canadian Car & Foundry Company, one-half mile east of Kingsland, N. J., in which were stored hundreds of thousands of three inch shells destined for the Russian government, was destroyed late today by fire and a series of explosions which continued for three hours. So far as could be learned tonight no one was killed or injured, although it was said seventeen workmen were missing. No estimate of the loss was obtainable but it was said it might reach \$4,000,000. Approximately 1,400 men were employed in the plant, which comprised between forty and fifty buildings and

## WORK THAT TELLS

Plenty of It Has Been Done Right Here in Maysville.

To thoroughly know the virtues of a medicine you must investigate its work. Doan's Kidney Pills stand this test, and plenty of proof exists right here in Maysville. People who testified years ago to relief from backache, kidney and urinary disorders, now give confirmed testimony—declare the results have lasted. How can any Maysville sufferer longer doubt the evidence?

Henry S. Gallenstein, blacksmith, 124 W. Third St., Maysville, says: "My kidneys were out of order and I had pains through my back. Doan's Kidney Pills put an entire stop to the pains and my kidneys became well." (Statement given January 9, 1912.)

RESULTS THAT REMAIN OVER FOUR YEARS LATER, or on November 14, 1916, Mr. Gallenstein said: "I haven't had any need of a kidney medicine since I last recommended Doan's Kidney Pills. The benefit they gave me has been permanent." Mr. Gallenstein is only one of many Maysville people who have gratefully endorsed Doan's Kidney Pills. If your back aches—if your kidneys bother you, don't simply ask for a kidney remedy—ask distinctly for DOAN'S KIDNEY PILLS, the same that Mr. Gallenstein has twice publicly recommended—the remedy backed by home testimony, 50c all stores. Foster-Milburn Co., Props., Buffalo, N. Y. "When Your Back is Lame—Remember the Name."

covered about eighty acres of ground. No munitions were manufactured at Kingsland, but the plant was used for the filling of shells, the chief constituent used being trinitrotoluol, one of the most powerful explosives known. While it was estimated that nearly 500,000 shells exploded, primary fuses for caps had not been attached to them and consequently their detonations did not cause the havoc that follows their explosion when used on European battle fronts. The roar of the shells which sounded like a cannonade from heavy guns, was heard for miles, however, and the concussion shook buildings within a wide radius of the plant.

Two big magazines in which were stored trinitrotoluol, nitric acids, picric acids and powder were not reached by the flames and it was believed they were not endangered.

Kingsland, Rutherford and other places nearby, were filled tonight with refugees who had fled from their homes in the vicinity of the plant. A dozen persons were arrested at Kingsland on charges of petit larceny and orders were issued by Sheriff Pountier, of Bergen County, to the guards sent out by him in all directions, to shoot looters.

Thomas J. Hucklin, county prosecutor, and his assistants began tonight an investigation to fix responsibility for the disaster.

Reign of Terror Follows The fire, which began at 3:50 o'clock this afternoon was still smoldering late tonight in the ruins. Shells exploded continuously until 7:30 o'clock but after that hour the detonations were only intermittent.

The fire, which led to the disaster, started in what was known as "Building No. 30," where shells were being cleaned with denatured alcohol. The most generally accepted theory is that electric wires on the ceiling became crossed and a piece of blazing insulation fell into the alcohol.

A high northwest wind caused the flames to spread rapidly.

Buildings within a radius of two miles were shaken and almost all their windows were shattered. Many structures were badly damaged by falling shells and several were set on fire.

There was a literal reign of terror throughout Union township, in which the plant is situated.

There was a continuous roar as the flaming missiles flew high into the air and exploded. Soon the entire eighty acres which the plant occupied seemed to be covered with a sheet of flame.

Dense black smoke covered the countryside for miles. Sheriffs, deputies and police from Kingsland, Lyndhurst, Rutherford, East Rutherford, and other places, surrounded the plant and gradually spread out for a distance of two miles in all directions, warning the residents of their perils.

Within an hour after the fire started the highways were filled with refugees, men, women and children. Many of the women carried babies in their arms while others pushed baby carriages.

Most of the refugees made their way to Kingsland and Lyndhurst. Police stations, school buildings, stores, saloons, and private houses were crowded with them. Children became separated from their parents and it was not until late tonight that families were reunited.

From time immemorial the quaint little English town of Whithy—the scene of one of the earliest German air raids in the present war—has been associated with the jet industry. Whithy jet is said to have been worn by British in pre-Roman days.

## POWDER DESTROYED

By Fire and Explosion at the DuPont Powder Company at Haskell, New Jersey—Two Men Missing.

New York, January 12—Four hundred thousand pounds of powder were destroyed by fire and explosion at the Haskell, N. J., plant of the DuPont Powder Company at 9:30 o'clock tonight. Officials of the company declared after checking up the members of the night shift at the works that only two men were missing. Twelve were cut by flying debris, but none of them was seriously hurt. No estimate of the loss was obtainable.

The explosions were of terrific force and were felt for many miles in all directions.

There were two distinct explosions, the force of which was terrific. Buildings were shaken and windows shattered far out on Long Island and up the Hudson river to Poughkeepsie.

The first explosion was in what is known as "the glazing barrel." The fire which resulted spread quickly to the blending house and from there to three magazines. One of the magazines blew up, but the powder in the others was consumed by the flames.

The blazing magazine set fire to the screening house, from which the flames leaped across Wanauque river, and consumed three drying houses on the other side. At this point the fire was checked by the efforts of the company's employes.

Other buildings in the plant and many in the village, which was built in a semi-circle around the works, were scattered by the force of the concussion, which was by far the most severe ever experienced at Haskell.

No estimate was available of the number of men at work when the disaster occurred, but as soon as the terror caused by the explosions had subsided somewhat, the company's officials began rounding up their men to check up the casualties. It is feared that two who were employed in the glazing barrel lost their lives.

Following so closely on the heels of destruction of the Kingsland plant of the Canadian Car & Foundry Company, the explosion threw all Northern New Jersey into a panic. The sky was crimsoned by the conflagration and the flames were plain visible as far away as Yonkers.

Roads leading into Haskell in all directions soon were filled with convergences of every kind carrying physician, nurses, policemen and firemen, all eager to reach the scene of the disaster and give what aid they could. Terror-stricken women living in nearby communities, whose husbands were employed at Haskell, made frantic efforts to force their way past the guards and into the plant, where the explosion before they were convinced that many had not perished.

Every house in the village of Pompton Lake, more than two miles from Haskell, was damaged by the explosion. Scarcely a window was left unbroken. At the Pompton Lake Hotel the floors buckled and the guests ran to the streets in alarm. Many doors were blown in and chimneys knocked over. Many children were injured by flying glass. Bloomington, two miles away, suffered almost as severely.

The fire still was burning itself out in the Haskell plant at midnight and no definite information was available as to the property damage in the village itself. Some fear was felt that many persons might be found severely injured in the ruins of their homes.

DuPont officials had not determined late tonight the cause of the fire. They refused to hazard an opinion until their investigation is completed. There have been many previous fires and explosions at Haskell, but the company always has insisted they were accidental.

In today's issue of the Ledger will be found the advertisement of Messrs. R. G. Day & Co. of East Second street. They are in the market for all kinds of country produce, offering 45c per dozen for eggs.

Mr. W. A. Saunders of Cincinnati, traveling freight agent of the Queen and Crescent Railroad, was a business visitor in this city yesterday.

Mrs. O. T. Maddox of East Third street is able to be out again after being confined to her room for over a week with the grip.

Mrs. Asa Adair and son, Asa, Jr., arrived in this city yesterday to spend Sunday with Mrs. G. W. Adair of West Second street.

Mr. William Doyle, proprietor of the indoor baseball game on Market street left yesterday on a short trip to Portsmouth, Ohio.

Mr. Raymond Dora, the job pressman of the Ledger, is confined to his home on Forest avenue on account of illness.

## TO RECALL LAWSON

Refusal to Divulge Congressman Who May Be Implicated May Bring Contempt Charges—General Belief is that Broker Will Defy Congress to Exact Penalty.

Washington, January 12—Clothed with new powers for forcing a witness to testify, the House Rules Committee will call Thomas W. Lawson before it again, probably Monday, and demand that he name the Congressman who, he says, told him that a cabinet officer, a member of Congress and a broker were in a conspiracy to make money in the stock market on official secrets.

If Lawson again refused to name the Congressman and the trio involved in his story, as it is generally believed by the committee will then report him either to the House or the district courts on contempt charges.

If Lawson again refuses to name the committee today after an acrimonious debate between Democrats and Republicans on the floor of the House had upset the generally accepted idea that agitation of rumors of leaks in advance of President Wilson's peace note was about to subside. During the discussion Republicans charged that the Democrats were shutting off the inquiry because they were afraid of it, while the Democrats insisted that their opponents were playing partisan politics.

Cantrill Urges Action

When the House had talked for two hours and was about to vote on the committee's report, Representative Cantrill, of Kentucky, a Democratic member of the committee, who had not joined in the debate, made a proposition that changed the whole situation.

"Let the committee be instructed," he said, "to bring Thomas W. Lawson before it and submit to him in writing the questions he refuses to answer. If he does not answer then let Lawson be elected before the bar of this House and determine whether Thomas W. Lawson has more power than the American Congress."

Everybody was surprised by the suggestion, but in a moment endorsement began to come from members on both sides of the House, including Chairman Henry, of the committee.

## APPEAL TO FEDERAL COURT

(Cincinnati Times-Star)

The United States court of January 18, at Maysville, will hear the application of the Citizens' Telephone company to restrain the city of Newport from further proceeding with the effort to compel the company to place its wires in Newport underground. This action was the sequel to a hearing Friday in the City court.

The company demanded a separate hearing of each of 81 charges preferred against it. City Solicitor Spence announced that the defendant had violated the ordinance since October 1, and that each day constituted a separate offense, with penalty of \$50 for each violation.

Attorney Myers, for the company, in the City court denounced and filed a motion to quash both the affidavit and warrant, as it was alleged the law apportioned penalties offenses can not be bunched and penalty imposed in each case, insisting there must be a separate affidavit and warrant for each violation the city desires to prosecute.

Rev. E. L. Wilson of Lexington will fill the pulpit of the Central Presbyterian Church at both services tomorrow. Mr. Wilson has the reputation of being a very gifted speaker and many will doubtless be present to hear him. This is the first regular preaching services to be held in this church since the departure of Rev. H. Kerr Taylor.

Of 14,121,055 engaged in agriculture in Austria-Hungary almost 6,000,000 are women.

## OUR COLORED CITIZENS

Oscar Gamby and Miss Alice Brown of Maysville were united in marriage Thursday evening at the home of Mr. and Mrs. Penn on the Lexington Pike, Rev. R. Jackson officiating.
